7. Click the eSIM that you added

🤔 **If the SIM name is different from Travel?**
Don't worry!
For the add eSIM, you could change the name **arbitrarily.**
ex) For business, travel, assistance, etc.
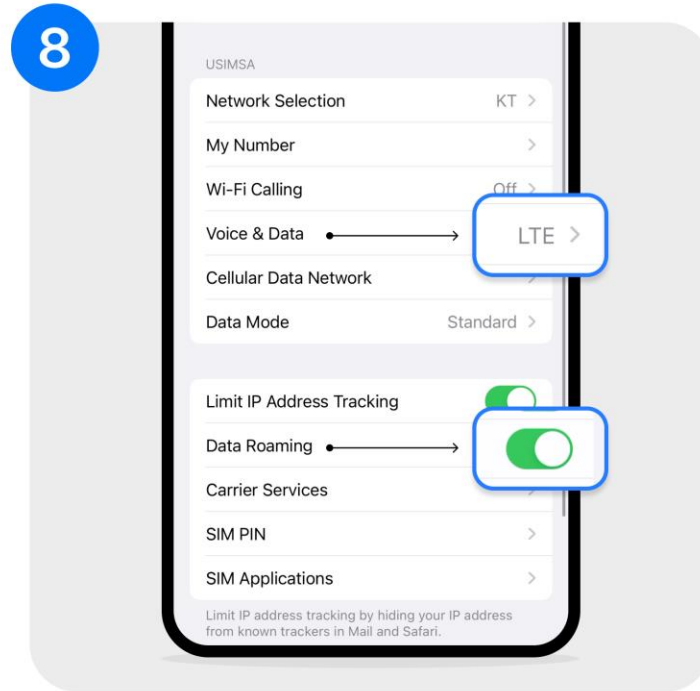

8. After turning the data roaming → Return

🚨 **Please change to LTE or 4G!**
If it's **5G** on the **voice and data button** show on the screen, please make sure to chage to use **4G** or **LTE!**
The data will go better when you change!
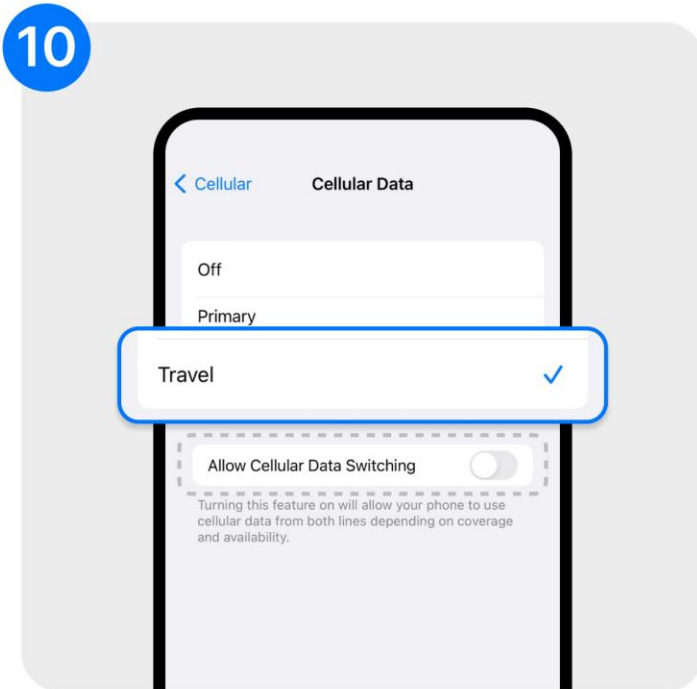

9. Click the Cellular Data

📞 **How do I check the** call /text message **from my home country?**
Please **set the default voice line to primary,** and you could check the **call or text message** from your country. However, there **may be charges for receiving and sending letters.** So please do! Use the data phone (**Facebook,Facetime etc.**) to contact your friends!

10

10. Click the eSIM that you added → Return

👋 **Why is it necessary to set**
Allow Cellular Data Switching to OFF?
Allow Cellular Data Switching must be set to OFF
so that could avoid using
the network of the **SIM (telecommunications company)**
and incurring **additional data charges.**

END

**11. Confirm the consistency** between the
eSIM and Cellular Data

eSIM setting is
finished!

Now enjoy your travel!
